VW SPORT ACCESSORIES

ZONKER

Our yellow Zonker is a GTI 16V constructed of parts out of the VW Sport Catalog. The big difference is that it features all-wheel drive and ABS brake system. It is our evaluation vehicle for things to come and is traveling with the VW Sport Caravan to selected motorsport events.

"KICK A LITTLE ASPHALT" T-SHIRT

This colorful heavy-weight Ocean Pacific™ T-shirt features a five-color graphic on the back with the famous OP logo on the front. (Available while supply lasts.) M, L, XL.

RECARO™ SEATS

Recaro seats reflect timeless elegance while enhancing the Volkswagen driving experience. Only the best materials are used in Recaro seats. From the steel hull used for basic construction, spring elements, and air-conditioning fleece, right through to the covering materials, everything ensures maximum, long lasting comfort.

Our VW Sport Recaro seat features adjustments for lumbar support, extended seat cushions, and sport-style side supports.

The VW Sport Recaro is available in black velour or leather. Matching rear seat covers and additional fabric colors are available as special order items. Contact VW Sport direct for details.

BOSCH™ FOG LIGHTS & DRIVING LIGHTS

See and be seen with VW Sport Halogen Fog Lights or Driving Lights. Some of the features include:

- Wide angle beam projection extends illumination to road shoulders.
- Peripheral vision increased from 48% to 108%.

- Improves night-time visibility, even in clear weather.
 - Undercuts fog, haze, rain and snow.
 - Reduces glare on road surface.
- A set of two lights comes complete with an original equipment switch, wiring, relay, mounting hardware and instructions.

BBS™ WHEELS

The counter-pressure method of casting these wheels was pioneered by BBS and continues to be the state of the art in casting technology. BBS wheels' precise cross-spoke design allows optimum air-flow for brake cooling effi-

ciency during performance driving conditions. The lightweight design and precision manufacturing translates into improved vehicle handling.

Available in sizes for all Volkswagen models.

BBS™ AERODYNAMIK SYSTEM

BBS Aerodynamik styling is classical and yet very functional. Each kit has been developed in extensive wind tunnel testing with the final design perfectly matched to each Volkswagen model's distinctive look. BBS Aerodynamik systems

allow owners to increase their vehicle's performance while making a statement of individuality and style.

All BBS components are constructed from reaction injection molded polyurethane, which retains elasticity even under extreme temperatures. Slight impacts are effortlessly absorbed without deforming the original shape. All BBS Aerodynamik systems are chemically pre-treated, tempered and primed with a neutral colored elastic primer to guarantee optimal paint adhesion.

Available for Rabbit, Cabriolet, Jetta, Golf II, Jetta II and Scirocco.

WORLD'S FASTEST CAR

VW Sport has the fastest car in the world and around the world. Would you believe a Jetta with a speed of over 800 mph? How about a Jetta that traveled around the world (23,100 miles) in 36 hours and 54 minutes and 15 seconds? It is all true—sort of.

The Volkswagen Jetta we are talking about was carried on Friendship One, a Boeing 747, which set a new around-the-world speed record on January 28-30, 1988. The flight raised more than \$500,000 for charity and the Jetta will be raffled off in late 1988 to raise additional money for charity.

VW WINNER'S CIRCLE CAP

This is the same cap worn by all the race winners in victory circle. A one-size-fits-all, deluxe corduroy cap with the famous Volkswagen trademark embroidered on the front. Grey or Navy.
